Stories About Blaine

The Rumors of His Illness are Unfounded.

WHAT HIS ASSISTANT SAYS.

No Truth Whatever in the Report—Our New Haytian Minister in No Hurry to Leave for His Post of Duty—Other Washington News.

WASHINGTON, July 16.—"Stories sent out to the effect that Secretary Blaine is dangerously ill," said Assistant Secretary of State Wharton, "are absolutely without foundation. It was necessary for certain papers to be sent to Mr. Blaine last week, and it was a question whether Walker Blaine or Mr. Dent should take them to the secretary of state. Finally, however, Walker Blaine decided to make the trip, as it would give him an opportunity to see and talk with his father, and if there had been any symptoms of sickness such as has been reported, I would surely have been notified."

"We have not as yet issued letters of instruction to Minister Douglass, and he will not sail for Hayti until matters assume a more definite shape in the black republic. As a matter of fact our government has not recognized the claims either of Hippolyte or Legitime, and until that is done it will not be imperative to send our representative to Hayti. Beside it is the yellow fever season now in Hayti, and there is no reason why Minister Douglass should jeopardize his health by going there at an unhealthy period."

William H. Trescott, of this city, mentioned in The New York Times as authority for the statement that Secretary Blaine was about to resign from the cabinet, in an interview said: "It is all the sheerest nonsense. I do not know what it all means. All I know of Mr. Blaine's ill-health and his rumored resignation I learned from the newspapers. It is puzzling to me what The Times means. It recently asked me of giving information about Mr. Blaine to a newspaper, which it did not name, and I do not even know what paper it refers to. I do not care to notice the matter at all."

Accident to Minister Terrell.

WASHINGTON, July 16.—Information has been received by friends here of an accident to Hon. E. P. Terrell, of Texas, minister to Belgium. As he was boarding the steamer in New York he struck his knee against a projection, injuring it so badly that he has been unable since to walk. He reached Brussels, but has not yet been presented to the king. In a letter Mrs. Terrell says she fears that the result may prove quite serious.

A Useless Waste of Money.

WASHINGTON, July 16.—The chief of engineers has received the annual report of Capt. W. L. Fisk, in charge of river and harbor improvements in Louisiana and Texas. After an examination of Bayou St. John from the head of navigation to Lake Pontchartrain, Capt. Fisk thinks the stream is not worthy of improvement. The wreck of the French ship Isle Marthe was removed from the Vallette drydock at New Orleans.

Judge Tyner Serially Ill.

WASHINGTON, July 16.—Judge Tyner, assistant attorney general for the post-office department, is worse. He passed a bad night, and this morning the doctor declared he was not so well. His condition is serious, and his friends are anxious about the outcome of his illness.

Secretary Noble Back.

WASHINGTON, July 16.—Secretary Noble returned to Washington from Cape May yesterday, and was at his desk in the interior department. Assistant Attorney General Shields, of the interior department, left Washington last night for his home in St. Louis. He will be absent about a month.

Exports of Bread-tuffs.

WASHINGTON, July 16.—Breadstuffs exports during June past aggregated in value \$8,925,958, against \$7,680,325 during June, 1888.

AFFAIRS AT JOHNSTOWN.

Several Interesting Items Picked Up in the Flooded District.

JOHNSTOWN, Pa., July 16.—A plan has been submitted to bring the matter of consolidation of the different boroughs with Johnstown before the voters of the next general election.

The board of trade passed resolutions urging that steps be taken to bring the matter of clearing up the streams to the attention of the National government, and urging an appropriation for that purpose.

As now arranged the sufferers are put in five classes, and are paid respectively \$700, \$400, \$200, \$125 and \$80 in each.

If there are funds enough left for another distribution the same basis will be used.

A crank named Angerstein of Washington, D. C., addressed a crowd at an outdoor meeting last night on a plan of action to be formulated to deal fairly with the people, but did not touch on their grievances to any extent.

Judge Cummin is in town and announces that he will be ready to begin paying out money on Monday morning. He has turned over the \$50,000 which he received for this purpose to Treasurer Thompson, of Pittsburg, and that gentleman will bring the money here and pay it out as fast as Judge Cummin and the notaries get the papers out.

AFTER THE BATTLE.

Mississippi Prosecuting Abettors of the Sullivan-Kilrain Fight.

NEW ORLEANS, July 16.—The Times-Democrat's Purvis, Miss., special says: Capt. J. T. Jamieson and C. W. Rich were arraigned in court yesterday, charged with aiding and abetting the Sullivan-Kilrain fight, and gave \$1,900 each for their appearance at the next term of the court.

Referred Fitzpatrick will be tried next Thursday. It is rumored that affidavits have been made against Superintendents Carroll and Tyler, of the Queen and Crescent route, and that extradition papers will be issued for them. Thus begins the fight against the railroad. It can be safely said that the guilty parties may expect a vigorous prosecution.

Fitzpatrick Gives Himself Up.

JACKSON, Miss., July 16.—John Fitzpatrick of New Orleans, referred in the Sullivan-Kilrain fight, arrived here last night. He went to the governor's office and informed the governor that he had come to answer whatever charge there might be lodged against him for alleged violations of the laws of Mississippi. Preliminaries were waived and Mr. Fitzpatrick gave bond in the sum of \$1,000 to appear at Purvis, Marion county, on Thursday, the 18th. This bond was promptly signed by citizens of this place.

Charley Mitchell Disguised as a Tramp.

NEW YORK, July 16.—Charles Mitchell arrived in this city about noon yesterday disguised as a tramp. He dined at Strube's restaurant in Harlem and later strolled into Harry Hill's place in Harlem dressed in a light suit of clothes. He studiously avoided reporters. His father-in-law, Pony Moore, is expected here to-day. A friend of Mitchell's said that Mitchell and Moore had arranged to sail for Europe on Wednesday.

SEE that your cisterns are filled to the brim. Weather-prophet Wiggins says that this country will experience a drought during the last half of this month and the first of August that will prove the severest ever witnessed east of the Mississippi river. But Wiggins hasn't always proved a true prophet.

THE New York Star calls Mr. Wanamaker "the Floater Fund Postmaster General." It seems that our esteemed New York contemporary doesn't entertain such an exalted opinion as Brother Davis does of this millionaire merchant whom Harrison rewarded with the post-office department for "work" in the last campaign. But then great minds don't often run in the same channel.

An exchange says: "The State of Louisiana has a debt of \$12,000,000, and the Louisiana Lottery has offered to pay the entire debt if the State will renew its charter, which soon runs out." That's magnanimous, but a concern that is having the wealth of the country poured into its lap by every mail can afford to be generous. It realizes that a renewal of its charter even at the sum named would prove cheap in the end.

THE Maysville BULLETIN still calls it the "Maysville and Big Sandy."—Portsmouth Blade.

Of course we do. That's its name. Only last Saturday Messrs. Horace Schermerhorn and Edward H. Pardee, of New York, transferred all their interest in the railroad named to the "Maysville and Big Sandy Railroad Company." The road is operated as the Cincinnati Division of the C. & O., but it hasn't lost its old name.

COLSON, the Republicans' David, isn't receiving much encouragement and support in his race for Treasurer from some of that party's organs. The Louisville Commercial complains that the Republican Star of that city "has no good word to say of or for Mr. Colson." But that doesn't matter. The Republicans are deep in the woods and the Star can't furnish enough light to enable them to get out in August.

THE Louisville Times believes "the Republicans of Kentucky are making a still hunt, and have every nerve strained to elect Colson State Treasurer. While we don't believe there is much of a still hunt in progress, still that is no reason why any Democrat should remain away from the polls on the 5th day of August. All of you are interested in the welfare of the party, and every one of you should turn out and vote."

POSTMASTER GENERAL WANAMAKER attempted to scale down the tariff on a lot of wicker baskets he recently imported, but failed and had to hand over the regular rate. This leads the Chicago News to remark that he is "enough of a free trader when he buys anything from abroad to kick vigorously against paying an import duty. There are lots of people who want to see the other fellows taxed for the good of the country, but who don't like to be taxed themselves."

TRUSTS have been the subject of much discussion in the conventions that are engaged in preparing constitutions for the new States, and the people out that way seem to entertain an entirely different opinion of these "private affairs" from that expressed by Secretary Blaine. They look upon these organizations as "unlawful combinations," gotten up by a few individuals expressly for the purpose of robbing the masses. The constitutions of the new States will likely have some provisions on the subject.

THE C. and O. Railway Company can not find a better location anywhere along the river line for its shops than right here at Maysville. The ground adjoining the city on the east is splendidly situated, and would afford ample room for all the necessary buildings and yards. There are several influential citizens of Maysville on intimate terms with many of the railway officials and have been for the past year or two, but we doubt whether they have ever so much as lifted a finger to induce the company to locate shops here. There isn't a city or county along the route that has done half as much for the road as Maysville and Mason County. Thousands of dollars were subscribed

right here and paid to aid in the completion of this great railway system. Surely this ought to count something in favor of Maysville when the car-shop question is considered, all other things being equal. These citizens who are on intimate terms with the railroad authorities are all interested in Maysville's future, and they certainly might get together and try to do something. Has Maysville's claims ever been presented to the railroad authorities? Has our city's unsurpassed facilities ever been mentioned to the company? Shops erected here could be so arranged, and at but very little cost, as to be absolutely safe from destruction by fire. This is an important item to all who are interested in industrial enterprises. Maysville's advantages are not appreciated by outsiders, simply because they haven't been made known. Will the citizens referred to above go to work and try and do something for their town? By an earnest and united effort on their part Mr. Huntington might be induced to locate some of his car-shops here. He can not find a better place for them. Nor can he find a place where he has received more liberal treatment.

COLONEL D. HOWARD SMITH.

Sudden Death of one of Kentucky's Best Known Men.

Colonel D. Howard Smith, Ex-State Auditor and one of the best known men of Kentucky, died suddenly at his home in Louisville early yesterday morning.

The Times says so wholly unexpected was his demise that people hardly credited the report when it was circulated on the streets. He had been complaining of shortness of breath for some time, but two prominent physicians could find nothing the matter with him after an examination. Sunday he was apparently in the best of health. Retiring early, as was his usual custom, he slept soundly until about 6 o'clock Monday morning, when he awoke. Rising, he asked his wife, who was also awake, what time it was. She told him and he walked to the window. After looking out a moment he returned to bed, remarking that it was quite chilly. Hardly had his head touched the pillow before his breathing became very labored, and was a corpse in a few minutes.

The deceased was born near Georgetown, Scott County, November 4, 1812. His wife and ten children survive him.

In 1867 he was nominated almost by acclamation for Auditor of Public Accounts, and was elected by an almost unprecedented majority. He was again elected in 1871, at that time without opposition in his own party. Again in 1875 he was re-elected. As a State officer he was very popular, and had few superiors.

THE MARKETS.

Tobacco.

Furnished by Glover & Durrett, proprietors Louisville Tobacco Warehouse.

Sales on market for the week just closed amount to 8,275 hds. with receipts of 2,821 hds. for the same period. Sales on market since January 1st amount to 69,070 hds. Sales on the crop of 1888 for our market up to this date amount to 49,707 hds.

The offerings of burley tobacco on our market this week have been very large and prices have been fully sustained all along the line, with an improvement in prices on some grades, and we find it necessary to advance quotations on some of the classifications. From many localities we hear the report that the growing crop is rather bad condition on account of the excessive rains, and we are beginning to see a little bad effect of the wet weather on some of the crop of last year.

The following quotations fairly represent our market for new burley tobacco:

THE fourth quarterly meeting of the M. E. Church, South, for Shannon and Sardis will begin to-morrow night at Shannon Church, with daily services, and continue over next Sabbath.

ALLAN D. COLE, Master Commissioner, has conveyed a small tract of land near Minerva to William E. King for \$120 50. The land was sold in the case of Edward Mulcahy's administrator against Hardin Perkins.

MESSRS. WILLIAM T. COLE and Frank P. O'Donnell were granted license yesterday to practice law and were sworn as attorneys at the Mason County Bar. The former is a son of Judge A. E. Cole, while the latter is a son of Mr. John O'Donnell, of Market street.

CAPTAIN EDGINGTON, of the Silver Wave, ought to get a new whistle for his boat, or quit blowing the present one so much while the steamer is at the wharf. It is a regular ear-splitter, and he will gain the good will of the residents of Front street by making a change to something more pleasant.

CHESTER comes to the front this year with quite a number of improvements in the way of neat cottages. Most of the buildings are of a substantial character, of handsome design and are a credit to the place. Some ten or fifteen have been completed already, and others are being erected.

MR. R. D. SOWARD, of Elk County, Kas., in renewing his subscription for the WEEKLY BULLETIN, adds a few words about the crops out that way. He says: "We're threshing, wheat and it is yielding thirty-five bushels per acre. Crops of all kinds are looking well, and there is an abundance of fruit."

MRS. PICKETT, wife of the Confederate general who made the famous charge on the last days of the Gettysburg battle, is shortly to marry General Lynch, whose brigade met the charge of the Pickett men. Their first meeting was at the reunion of the blue and the gray on the battle-field last year. He is about 60 and she is a well-preserved, handsome woman of 50.

THE News published at Canon City, Col., has the following in reference to a former citizen of Maysville: "R. C. Smith, who has been over in the Blue River country for several months, returned to Canon last Friday and is stopping at the St. Cloud. He came back in very poor health, the altitude in the Blue River country being too high for him. He will remain in Canon in the future."

HARRY C. WENSEL.

A Former Citizen of Maysville in the Law's Clutches at Slater, Saline County, Mo.

Harry C. Wensel, who was a resident of Maysville, a few years ago, and who married Miss Naomi Paul while here, is in the law's clutches at Slater, Saline County, Mo., where he will soon have to answer for some of his misdoings. Wensel seems to be a pretty slick rascal. He had previously figured in affairs where he got the best of too-confiding creditors, notably at Owenton, where he "beat" several parties out of some of their hard-earned cash. He left that city between two days. The Kansas City Times, of July 13, gives the details of his latest escapade. It says:

"Deputy Marshal E. W. Vaughn of Slater, Saline County, arrived in Kansas City Friday, armed with a warrant for and a photograph of Harry Clifton Wensel, who is wanted in Slater for passing worthless checks upon number of citizens of that town. Friday afternoon Detectives Halloran and Hayes found Wensel at the Grand Missouri barber shop, where he was at work, and arrested him. He was locked up at the central station until late in the evening, when officer Vaughn departed for Slater with his prisoner.

"Wensel is evidently a clever rogue, beside being a heartless scoundrel. With his wife and children he became a resident of Slater in the spring of 1888, running a barber shop and news stand. He was a man of fine address and soon succeeded in running up bills all over town. In November he went among his creditors and drew checks for the amounts he owed, in each instance drawing the check for a sum considerably larger than the bill, receiving the difference in cash. After realizing about \$100 in cash by this unique mode of settlement he skipped out leaving his wife and babies in a destitute condition. The household furniture was seized and sold, but charitable citizens raised a purse and sent the deserted wife to her people in Kansas.

"Among other parties victimized was the Kansas City Times, Wensel having been the agent at Slater, and when he disappeared an examination of the books disclosed the fact that he was over \$30 in arrears for paper's s.

"After Wensel fled from Slater a warrant was issued for his arrest and he was subsequently indicted by the Saline County grand jury. He was heard of at various times at Covington, Ky., Cincinnati and St. Louis, but always skipped before the officers could lay hands on him. He came to Kansas City about two months ago and has worked in different barbershop. He was identified by means of a photograph which was sent to the Kansas City detectives by his wife, who is now residing in Kansas."

More Revenue Appointments.

Colonel Goodloe, Collector of this district, appointed three more Storekeepers yesterday. The lucky men are Mr. Pat Sammons, of this city, and Messrs. Add, Mitchell and Thomas Fitch, of Vanceburg.

Mr. Fitch is a brother of Attorney Will Fitch. Mr. Mitchell has been there before and knows all about the business, having served as Storekeeper during the last Republican administration.

Mr. Sammons is one of the popular "mixers" at the St. Charles, and was receiving the congratulations of his friends last evening. These appointments about wind up the number usually apportioned to this end of the district. One or two more pieces of the "pie" may be given to this section, however.

Mr. J. K. Waller, of Carlisle, has received the appointment of Division Deputy, and will succeed Mr. Dudley Talbot, of Paris. Mr. Waller is a brother-in-law of Mr. H. C. Sharp, of this city.

Of Interest to Storekeepers and Gaugers.

A Washington City special to the Louisville Times says: "Internal Revenue Commissioner Mason has adopted a new rule in regard to the assignment of Storekeepers and Gaugers, which, I am afraid, will not please the boys by any means.

He will make the assignment himself hereafter, instead of intrusting that duty to Collectors, as heretofore. He is also going to put the Storekeepers and Gaugers on duty in districts other than those in which they reside, or from which they are appointed. For example, an appointee from Colonel Feland's district may be placed among the sour-mash stills of Anderson County, whereas one of Collector Scott's city breeds may be put on the picket along the classic shores of "Hell-for-Sartin" at the other end of Brother Burnam's bailiwick. This won't please the applicants a bit, but if they don't like it, they need not apply."

Progress.

It is very important in this age of vast material progress that a remedy be pleasing to the taste and to the eye, easily taken, acceptable to the stomach, and healthy in its nature and effects.

Possessing these qualities, Syrup of Figs is the one perfect laxative and most gentle diuretic known.

Railway News.

The ship yard at Newport News, at the other end of the C. & O. line, will eventually be one of the greatest, if not the greatest in the world, says the Cincinnati Commercial Gazette. C. P. Huntington is the largest stockholder in the ship-yard company.

The C. & O. is putting down three additional side-tracks, each a mile in length, at Russell. Each of these tracks will accommodate 139 cars. A round house is being erected and other arrangements made for the establishment of freight division quarters at that point.

In 1869 Lyon County subscribed \$200,000 to the Elizabethtown & Paducah road, now part of the C. O. and S. W. system.

Twenty-year 7 per cent. bonds were issued in payment. Seven years later the county attempted to repudiate the debt.

The matter ran along in the courts until 1887 when a compromise was effected whereby the county funded its old bonds by new 6 per cent. twenty-year bonds, amounting to about \$165,000. In 1888 the county defaulted on the interest accruing to these new bonds, and at the last February term of the Federal Court at Louisville, L. G. Quinlin, of the city of New York, who holds a large number of the bonds, brought suit thereon against the county, and obtained a judgment. In

order to defeat the collection of the judgment, the Sheriff of the county resigned, and it has been without a Sheriff since last spring. Quinlin filed a supplemental suit for a mandamus against the County Judge of the county to levy and cause to be collected a sufficient sum to pay his judgment, to which the County Judge responded, saying the public sentiment in the county was so hostile to the payment of the debt that he was powerless to collect.

Quinlin asked the court to appoint a Commissioner to enforce his judgment, and Judge Barr granted his request. It looks like the county may as well plank down the cash.

Do you want a clock? If you do, go to Ballenger's jewelry store and you can find one to suit you. He has them from the cheapest made to the most elegant.

Fresh stock just received. And they are correct time-keepers.

WILLIAM THOMAS was convicted yesterday in the Circuit Court of keeping a disorderly house and fined \$50 and costs.

Geo. Moore was tried on charge of renting a house for unlawful purposes and acquitted. Both are colored and hail from Washington.

The barbers of Louisville are making an effort to have all shops closed on Sunday, and have petitioned the authorities to enforce the law. They claim "they are as much entitled to a day of rest as any other class of workingmen, and urge as a reason for asking the interference of the municipal authorities that the patrons of the barbers demand the Sunday service, and will not patronize a shop that will not accommodate them on Sundays."

THE eastbound "Fast Flying Virginian" has been rocked on several occasions of late, and the guilty parties will wake up some of these mornings to find themselves in serious trouble.

The Commerce Street crossing, or that immediate vicinity, is the point where the rocks are generally thrown.

Last evening one of the windows of the cab was broken. The engineer put the brakes on and brought the train to a stop, but diligent inquiry and an offer of a liberal reward failed to discover the offenders.

The names of several parties were taken and further investigation will be made.

County Court Doings.

Charles B. Pearce, Jr., John Duley and J. B. Noyes were appointed appraisers of the personal estate of Emilia Strode, deceased.

An inventory and appraisal of the personal estate of George W. Blatterman was filed and ordered recorded. The appraisal amounted to \$1,079.16.

Accounts for well-bound record books bought in 1888 and 1889, amounting to \$47, were presented, sworn to and ordered certified to the State Auditor for payment.

Socialist Congress.

The Followers of Karl Marx Meet in Paris.

OPENING DAY'S PROCEEDINGS.

Every Nation in Europe Represented.
German Delegates Especially Welcomed.
Startling War News from Rome—Other Foreign Dispatches.

PARIS, July 16.—The Socialist congress, which convened in this city yesterday, is composed exclusively of the followers of Karl Marx, and the congress itself is spoken of as the Marxist congress, to distinguish it from another convention of Socialists which assembled here yesterday, who are known as the Possibilists, and who meet in Saale Petre.

Germany has a representation of ninety-three in the Marxist congress, including the leaders of the German social Democratic party. Such men as Bebel, Liebknecht and Vollmar, Messrs. Morris, Carsten and Hardy are present from England, while Australia's delegation is headed by that well known Socialist, Dr. Ablen. Every nation in Europe is represented.

M. Lafarque, of France, delivered the opening speech, extending the welcome of Paris and of France to the members of the congress, but the German delegates more than to all others, he desired to extend the hand of fellowship. He wished to demonstrate to the world that race prejudices which its tyrants everywhere fostered and encouraged to further their own selfish ambitions, had no place in the hearts of the Socialists of France, who could welcome their German brother with a love that was all the stronger for the hate they were expected to bring him.

Two chairmen were elected to serve for the day—M. Vaillant, councillor of the Paris municipality, and Herr Liebknecht, member of the German parliament. The latter gentleman in addressing the congress spoke in German, French and English.

The opening hour of the convention, 8:30 in the morning, stamps it at the outset as a workingman's gathering, an assembly of men accustomed to long hours of toil. The first session lasted until 2 in the afternoon when a recess was taken for luncheon. This meal was also characteristic, all luncheon together and on wholesome but inexpensive viands, the prices of which were within the reach of the proletariat, who constitute by far the largest portion of those present.

The best of feeling prevails among the delegates, and all express great enthusiasm as to the importance of the work the congress will accomplish.

Some of the delegates to this convention also take part in the Possibilist congress at Salle Petrelle, but none of the ninety-three German Socialists will go near the other gathering.

Starting War News.

LONDON, July 16.—Some warlike news is telegraphed from Rome, where L'Opinione, in an article evidently inspired, warns the Italian that the French war minister has perfected the details of a march across the Italian frontier, and it is merely necessary to give the word, and the border provinces are at the mercy of the invader. The article calls upon the government to no longer delay measures for the proper protection of the frontier.

Chamber of Deputies Adjourn.

PARIS, July 16.—The chamber of deputies has passed the supplemental credit of £2,320,000 asked by the minister of marine for the purpose of building new war ships. A bill was also passed extending amnesty to various classes of political offenders, after which M. Meline, president of the chamber, read the decree closing the session, and the chamber adjourned.

Railroad Building in China.

LONDON, July 16.—A dispatch from Shanghai to The Standard reports that the emperor has issued an edict ordering the immediate building of the projected Tung Chow railroad, and that the Marquess Tseng has been appointed by the emperor general director of all railroads in China.

A King With a Phonograph.

ROME, July 16.—The king yesterday received an Edison phonograph, and manifested great delight with its working. He talked into the instrument at intervals for an hour, and sent a phonographic message to the queen, who is visiting at Venice.

Fruit Crop a Total Failure.

VIENNA, July 16.—Owing to recent disastrous storms in northern Bohemia all the vines in that region, as well as the entire fruit crop, will prove a total failure.

WANTS TO GET OUT.

Latimer, the Murderer, Playing the Insane Dodge in the Penitentiary.

JACKSON, Mich., July 16.—Irving Latimer, serving a life sentence for the murder of his mother, is insane or is playing the insane dodge with remarkable shrewdness. When alone in his cell he weeps and wails, sings and pleads for forgiveness; these outbursts being succeeded by spells of melancholy, when he will speak to nobody.

When at work the unfortunate youth keeps muttering to himself constantly, and when eating he will fix his eyes on an object, and frequently has to be aroused by his keeper before he will finish his meal. The man is pale and emaciated, and nearly everybody about the prison, except Warden Bates, looks upon him as insane. Latimer's case will be heard by the supreme court at the September term.

Storm Off Highland Light.

HIGHLAND LIGHT, Mass., July 16.—An unusually severe northeast gale with rain prevails here, and the sea is rough. Several small yachts were off this point when the storm began. Navigation will be dangerous for small vessels during the next twenty-four hours.

RAN INTO ELECTRICITY.
Queer Freaks of a Rain and Wind Storm at Evansville, Ind.

EVANSVILLE, Ind., July 16.—A heavy wind and rain storm which visited this city Sunday afternoon did much damage. Numerous electric light wires were blown down charging the pools of water and buildings with the current. Fire a foot high was emitted in many places, causing an alarm to be sounded.

The fire department responded, and being unaware of the condition of things, rushed into what was almost certain death. Horses and firemen alike were knocked down by the electricity. Citizens rushed in, and met a similar fate, and for a time excitement ran high. When the current was shut off over a dozen persons were found unconscious, but their lives were saved. Several of the firemen, however, at last accounts were said to be in a precarious condition.

TRYING TO EVADE DUTY.

NEW YORK, July 16.—Inspectors Brown and Donohue, of Surveyor Beattie's force, found concealed on the person of F. J. Casey, a passenger on the steamship City of Chicago, of the Immigrant line, twenty pairs of kid gloves, four pairs of gold sleeve buttons and seven gold brooches. Casey, who is a merchant in St. Louis, declared before his baggage was examined that he had nothing dutiable in his possession. The property was sent to the seizure room.

AFTER FOUR MILLION DOLLARS.

SAN FRANCISCO, July 16.—The contest over the property of the late Thomas H. Blythe was commenced in court yesterday. It promises to be one of the most celebrated cases ever brought to the attention of the courts on the Pacific coast, as the property involved is valued at \$4,000,000 and the claimants number over 200 persons. The most prominent of these are Florence Blythe, who avers she is the illegitimate child of the deceased millionaire, and Alice F. Dickerson, who claims that Blythe recognized her as his wife.

She Put Up a Job On Bim.

NEW BRUNSWICK, N. J., July 16.—John Bennett a son of a wealthy farmer of Jamesburg, and a married man, recently became infatuated with an Irish girl named Hullfish, and is alleged to have paid his wife to leave him. He continued his improper relations with the girl and gave her lots of property worth \$12,000. The girl then left him and married her cousin, a man named Jobbs. Bennett is said to be losing his mind.
